EXECUTIVE PROFILE

- Operations leader with nine years across logistics and e-commerce fulfilment, accountable for **delivery timelines, cost per order** and the client relationships that depend on both.
- Rebuilds process rather than patching it — mapped and redesigned the inbound flow across three warehouses, taking dock-to-stock from 14 hours to 6.
- Runs teams that stay: grew a 12-person unit into a 40-person operation across three sites with attrition below the regional average throughout.
- Reads the numbers before the meeting — weekly cost-per-order, SLA breach and returns dashboards built in-house and used to brief the leadership team.
- Holds client relationships through difficult quarters, retaining the region's two largest accounts through a peak-season capacity crunch.

PROFESSIONAL EXPERIENCE

MARCH 2023 – PRESENT

Regional Operations Manager

Meridian Supply Co., Pune

- Owns the western region's fulfilment operation and its ₹40 Cr cost base.
- Runs fulfilment across three sites and 40 people, carrying delivery SLA, cost per order, returns and client retention.
- Cut cost per order by 18% in two years by renegotiating the last-mile vendor mix and rebalancing volume across sites.
- Rebuilt the inbound process end to end, taking dock-to-stock from 14 hours to 6 without adding headcount.
- Holds the region's two largest client relationships, retaining both through a peak-season capacity crunch.
- Built the weekly operations dashboard the leadership team now briefs from — SLA, cost, returns and attrition in one view.
- Coaches three site leads on daily planning, escalation and the numbers they are accountable for.

JUNE 2020 – FEBRUARY 2023

Operations Manager

Northline Logistics, Mumbai

- Ran a single high-volume fulfilment centre through a period of rapid growth.
- Managed a 12-person team through a doubling of daily order volume with no deterioration in SLA.
- Introduced shift-level planning and a standard escalation path, cutting same-day breaches by a third.
- Led the Six Sigma Green Belt project that reduced mis-picks by 41% across the site.
- Owned vendor performance reviews for packaging and transport, consolidating from nine suppliers to four.
- Trained and certified 20 associates on the new warehouse management system during rollout.

PROFESSIONAL EXPERIENCE, CONTINUED

AUGUST 2018 – MAY 2020

Assistant Manager, Fulfilment

Northline Logistics, Mumbai

- | First people-management role, running the outbound shift.
- Ran the outbound shift for a 4,000-order-a-day site, accountable for dispatch accuracy and cut-off adherence.
- Reduced dispatch errors by introducing a two-stage verification at pack-out.
- Produced the daily operations report used by the site manager and the regional team.

JULY 2017 – JULY 2018

Operations Executive

Crestfield Retail, Nashik

- | Store operations and stock accuracy across a four-store cluster.
- Handled stock accuracy, replenishment and audit compliance across four stores.
- Brought cycle-count accuracy from 92% to 99% within one financial year.
